Summary

I am an experienced Full-Stack Web Developer with over five years of expertise in web development and a solid background of nine years in the technology sector. Proficient in both front-end and back-end technologies, with a proven track record of building responsive and user-friendly websites and applications. Adept at collaborating with cross-functional teams to deliver high-quality software solutions, implementing CI/CD pipelines, and mentoring junior developers. Passionate about continuous learning and staying updated with industry trends.
